

Take a stroll through **The Heritage Rose Garden** located on property where you will find the many names of friends, families, and organizations whose donations and efforts have helped to preserve, maintain, and fund the many exhibits on the property.

Welcome to the memorable Stagecoach Inn Museum Heritage Memorial Rose Garden. The garden is located near the entry to the right. Entering this garden will literally take you down memory lane.

The Garden is filled with not only roses but many other colorful and fragrant flowers of all kinds.

The walkways of brick meander through the garden leading to a beautiful rose covered archway, where just beyond, sits a bench for resting and enjoying the splendor.

The walkway continues to grow each year, for it is truly a memory lane. As you look at the bricks you will see many fond memories of people, families, and even businesses, carved in stone for time everlasting.

The **Ventura County Rose Society** planted and maintains this garden. If you would like to request a memorial brick in the Heritage Memorial Rose Garden, please visit the Stagecoach Inn Museum. There is a donation fee that covers the purchase and installation of memorial bricks into the walkway.
